Director of Photography with 15+ years of experience working on documentary, film, TV and corporate projects. Growing up in a house full of cameras, photography and filmmaking have always run in my blood.

I've worked in very diverse environments - from remote towns in Alaska via busy cities like London and New York to abandoned places like Chernobyl. I love working on documentaries, factual TV and emotional film. I'm comfortable working in controlled conditions as well fast paced run-and-gun style productions.

My recent credits include programmes for ITV, Netflix, Channel 5, Discovery+, History and PBS.

I shoot across a wide range of digital cinema cameras and currently own a RED Dragon-X, RED Komodo, Sony FX6 & Sony FX3. I also shoot 16mm film and own a Bolex H16 RX5.

I have a clean UK driving license, UK & EU (Italian) passports. I have a current US I-Visa (expires 2028). I'm a UK A2 CofC certified drone operator and also hold the EU A1/A3 drone certification.

Credits
